

## YEAR 6 HOME LEARNING – Week beginning 29/6/20

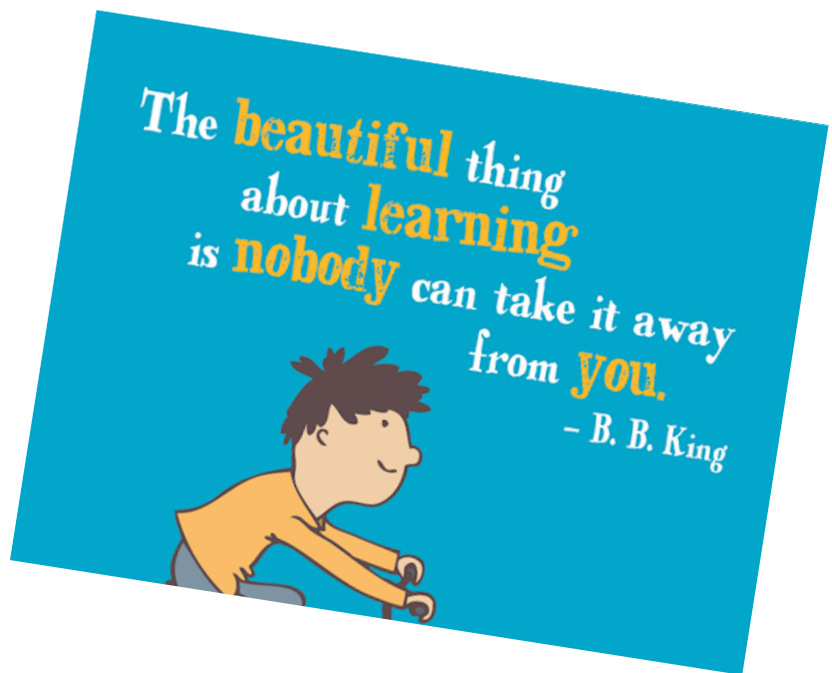

Hello again Year 6,

I hope you are enjoying the tasks I set as much as I am enjoying seeing the work you produce. We don't have long to go now; keep working hard and enjoy your last few weeks as a primary school pupil!

Remember that in addition to the tasks here, you can still access a range of sites: TimesTables Rockstars; NumBots; SpellingShed; MathsShed; Fiction Express and Oxford Owl.

Please keep sending me work through Class Dojo. I miss you all.

Stay safe,  
From Miss Towers

## English

Follow the link each day.

<https://www.talk4writing.com/wp-content/uploads/2020/06/Y6-Monsters.pdf>

**Monday:** Complete Activity 8: Planning

**Tuesday:** Complete Activity 9: Talk your plan through and then have a go at drafting sections that you will include in your writing tomorrow

**Wednesday:** Complete Activity 10: Write your report

**Thursday:** Complete Activity 11: Draw a map of your monster's land

**Friday:** Complete Activity 12: Giving feedback

If you want some extra work to do, you can then complete activities 13 and 14 at the end of the booklet.

Remember to keep reading and completing quizzes on Accelerated Reader.

## Maths

Follow this link: <https://whiterosemaths.com/homelearning/year-6/>

Click on **Summer Term: Week 9**. We are following this a week behind White Rose Maths so that I can have a look at it first and ensure it is suitable for all of you.

Underneath the title, you will find a video which demonstrates the learning of the lesson, breaking down the understanding. Please pause and repeat this as needed. If you would like to write notes down during the video, please do. Once you have watched the video, there is a worksheet to complete for each lesson (Monday-Thursday) **This is no longer available via the White Rose Maths website. The worksheets will be available on Class Dojo.**

**Monday:** Area and perimeter

**Tuesday:** Area of triangles

**Wednesday:** Area of parallelograms

**Thursday:** Volume of cuboids

**Friday:** Maths Challenge!

## Science

Our Science topic is 'living things and their habitats'.

Mould is the name for the types of fungi that grow on food. What do you think makes mould grow. It is useful to know what makes mould grow so that we can stop it happening as fast, and keep our food fresher for longer. Last week, you set up an investigation to investigate the factors which cause mould to grow.

This week, I would like you to record your results. Can you include photos or pictures of each result? What did you find out from your experiment? Is this what you predicted?

## Geography

Complete a comparison study of England and Mexico.

I have started you off by providing information about a famous English landmark. I would like you to research a famous Mexican landmark and create an information text in the same style. You can then choose another aspect to research (highest point, famous leader or another place of interest) for both England and Mexico.

**England: Stonehenge**

- Stonehenge stands majestically near Salisbury in the county of Wiltshire and began its long history in 3000BC, probably as a burial ground. No one is really sure why Stonehenge was built but some historians believe that it may have been a site for burials, healing, ceremonies, or as a temple to the Sun.
- In around 2500BC, the familiar stone circle was created. The larger stones around the outside are called the Sarsen Stones, the largest of which weighs about 35 tonnes!
- The smaller stones in the centre came from Wales and are called the bluestones.

## History

Last week, you researched different Mayan Gods. Using this new knowledge, I would like you design your own. You could use the template below as an idea of how to set your work out.

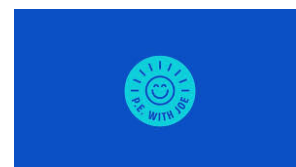

Name:	Drawing of your god
Meaning of name:	
God of what?	Any other information?
What do they carry/wear?	
What sacrifices have to be made to this god?	

## PE

Continue to complete P.E with Joe every day. You don't have to do it live – all of the videos are saved to his YouTube channel so you can do it later in the day if you prefer.

<https://www.youtube.com/channel/UCAxW1XT0iEJo0TYIRfn6rYQ>

## PSHE

It is the time of year where you would normally be visiting your new secondary school. Write a list of anything you are worried or unsure about when thinking about starting your new school. For each one, list the positives and negatives of the situation. Write down any actions you could take to solve the problem or worry and who you could ask for help.

## RE

Hindusim: Kumbh Mela

Watch this clip: <https://www.bbc.co.uk/programmes/p02n5v2q>

Write down examples of good and bad karma.

Hindus believe that washing in holy river water, especially during the Kumbh Mela, washes away bad karma and helps them get closer to achieving moksha.

Answer the following questions:

How might a Hindu feel if they believed bad karma had been washed away?

Why is it important for Hindus to attend a Kumbh Mela?

Try something new...
